New Trailer Highlights Potential Romantic Interests!

Burlingame, CA. – Oct. 6, 2016 – Natsume Inc., a worldwide developer and publisher of family-oriented video games, today introduces three aspiring brides for the upcoming Nintendo 3DS game, *Harvest Moon: Skytree Village*. Meet the Bachelorettes:

Jeanne is a shy girl training to become an herbal doctor. While she is extremely intelligent and excellent at her job, she can also be a bit goofy, which makes her an endearing, fun-loving gal! *"I... I...I'm Jeanne! I'm...studying to be an herbal doctor!"*

Elise is the daughter of Bastian, the Chef and owner of the restaurant and Inn in town. Elise is an aspiring apprentice chef. A bright and cheerful girl with a certain je ne sais quoi about her, her dream is to become a great chef just like her father! *"Enchanted to meet you! My name is Elise!"*

Melanie is the granddaughter of Gus, the blacksmith in town. Melanie is a successful interior and apparel designer, running her own shop, Melanie's Designs. She's a strong-willed city girl who came to Skytree Village because she heard of its legendary beauty. *"So, whatever-your-name-is, am I, like, even in the right PLACE? Is THIS the Harvest Goddess' land?"*

Do the bachelorettes match up nicely with the three unique bachelors in the game: Dean, Cyril and Gabriel? You decide!

Harvest Moon®: Skytree Village is available now for pre-order at [Gamestop](#)!

About Harvest Moon: Skytree Village (Nintendo 3DS)

Times have changed in the land known as the Oasis of the Harvest Goddess. Many people used to live in Skytree Village, and the land was lush and green. However, the power of the Harvest Goddess gradually began to wane, and the land became parched and dry.

With a completely new story, players will be challenged to restore the seven legendary Skytrees that make the town so iconic and bring power and prosperity to the land around them. Along the way, they'll meet a new cast of characters (with a few returning familiar faces!), alongside a brand new art style, new character models, and more.

With user-friendly tutorials, players will immediately be able to jump into the thick of things, customizing their farm by raising and lowering the land, creating rivers, ponds, and more. Upgraded tools will assist farmers in shaping the land more efficiently, and afterwards they can kick back and relax in their boat to do a spot of fishing! It won't be long before they'll need to weigh anchor to care for their newest herd animal: The Poitou donkey!
