

## **NATSUME RELEASES S.C.A.T. FOR DOWNLOAD ON WII VIRTUAL CONSOLE**

Burlingame, CA., February 7, 2011 – Natsume Inc., a worldwide developer and publisher of family-oriented video games, announced today that *S.C.A.T.* is now available for download for the Wii Virtual Console. The game is rated E by the ESRB.

"*S.C.A.T.* is a top-notch shoot-'em-up classic!" said Hiro Maekawa, President and CEO at Natsume. "It's got intense action, awesome powerups, and 2-player co-op. No shooter fan should miss it!"

*S.C.A.T.* (Special Cybernetic Attack Team) is a shooter in the classic mold. An alien armada has come to destroy the Earth, and only you (and a friend in the 2-player co-op mode) can stop them! You'll dodge waves of enemies, collect devastating powerups, and blast your way through fearsome bosses! *S.C.A.T.*'s unique twist on the formula is the two satellite weapons that orbit your character; these can be locked in at any angle to blast enemies above and below you, cover your back, or face forward with your main gun for an all-out frontal assault! It's furious, fast-paced action that'll put your gaming skills to the ultimate test!
