

NATSUME BRINGING HARVEST MOON TO NINTENDO DS™ AND 3DS™ THIS SUMMER WITH *HARVEST MOON®: THE TALE OF TWO TOWNS*

Burlingame, CA., April 7th, 2011 – Natsume Inc., a worldwide developer and publisher of family-oriented video games, announced today that *Harvest Moon: The Tale of Two Towns* is coming to North America, and will be released simultaneously on both the Nintendo DS and the 3DS.

"We're extremely excited to be bringing *The Tale of Two Towns* to these two great platforms," said Hiro Maekawa, President and CEO at Natsume. "We wanted to ensure that all of our loyal *Harvest Moon* fans would have a chance to play this game. No matter which version they pick up, they're sure to love the great new cast of characters, the fun festivals, and the exciting new gameplay mechanics."

Konohana and Bluebell villages were once the friendliest of neighbors. Then a huge dispute erupted between them...over FOOD! Both towns were certain that their cooking was the best in the world. This feud has transformed these happy neighbors into bitter rivals.

As a new farmer to the area, players choose which village to live in. Will it be Eastern-styled Konohana with its abundant fields of crops, or the animal-loving, European-styled Bluebell? Players will pick a home, build a thriving farm, and compete in a huge variety of festivals. If they develop their skills enough, and they might even find a way to bring these two towns together once again!
